What is your motivation for running as a candidate for the Board of Directors?

I love Lake Chelan and my family and I have been coming to Petersons for over 30 years. We have Time Shares in July, August, September and October and enjoy the summer and fall seasons. Petersons is a special place set in a beautiful location, and I want to help improve and preserve all our buildings and grounds for our use and the use of future generations.

What contributions do you feel you can make to the Association as a Board member?

I am highly motivated to help maintain and improve our buildings and grounds. I think I can bring a fresh perspective and new ideas to the board. I am a good listener and want to know what everyone is thinking about the future. Petersons has served us well for over 40 years, but it's time to put a good plan and budget in place for the future that will ensure we can maintain our resort at our current level while developing a new plan that keeps Petersons as the premier property on Lake Chelan for both the Time share and Full share owners. I would be honored to be part of that plan and process as a board member representing everyone and helping to move our plan forward.

List boards and committees that you currently and previously have served on

Organization	Position	Dates
West Tapps Maintenance Org.	Budget member	Multiple
Leader of Boeing Committees	Lead Multiple teams	1980-2015

Experience and Interests (Please check all that apply)

Finance-Accounting

Management

Policy Development

HOA

Construction & Maintenance

Provide a short Bio of 100 words or less suitable for production:

I was born and raised in Bellevue, WA. I graduated from City University with a bachelor's degree in business administration. I have been married to my wife Jan for 40 years and we spent 30 of those living on Lake Tapps where we raised two children, Brandon and Carly. I retired in 2015 from The Boeing Co after 37 years as a senior leader of manufacturing managing and leading teams of hundreds of employees. I enjoy golf, travelling, and working on projects inside and outside our home.
